

DIPPER

The Dipper is a digital water level indicator designed to give an accurate reading of the water levels in the fresh and grey water tanks on recreational vehicles, camper trailers and boats.

Boasting easy installation into the side of your water tanks and no moving parts, the Dipper has been designed for use with the suite of BMPRO battery management systems (BatteryPlus35/Trek, Drifter, J35) however is also compatible with a range of aftermarket tank level indicators.
